We are scheduled to meet with you on Monday, 25 June, at 1100 to discuss our 1986 program. The attached was prepared by the Comptroller for use in our deliberations on the program. Thought you might find it useful in preparing for our discussions on Monday.

Pages 1-11 (Overview and Ranking) deserve particular attention; the other sections provide background, and highlight issues the Executive Committee considered in arriving at its decisions. A brief description of each initiative in the Ranking appears on pages 133-167.
